Senior Project Director

GL

Presented by OIM, your trusted partner in Quality Services. We specialise in supplying top-tier Quality Inspection Personnel to integrate and reinforce your teams.

EXECUTIVE SUMMARY

Highly experienced Surface & Integrity Project Director with over 15 years of leadership in offshore field development, project management, and asset optimization. Proven track record of delivering multi-million-dollar projects under budget and on time. Expertise in debottlenecking, process engineering, and enhancing operational efficiency across Africa and Latin America. Bilingual in French and English.

KEY ACHIEVEMENTS

Okume Upgrade Project: Led the topside upgrade, electrical, and automation overhaul for six platforms, delivering 35% under budget and with minimal delays despite pandemic constraints.

Elon-C Platform Fast-Track: Engineered and constructed a wellhead platform in only 6 months, achieving seamless operational synergy.

Integrity Management & Pipeline Specialist: Reduced Integrity OPEX by 15% and improved performance KPIs by 30% across multiple subsidiaries.

PROFESSIONAL EXPERIENCE

Company Owner

SANORAH – Paris, France ***May 2022 – Present***

- Delivered comprehensive surface process, structure, and integrity audits for offshore projects in Central and West Africa.
- Managed surface Field Development Plans, including process design and offshore platform design.
- Developed business strategies for innovative O&G products, resulting in increased sales by 100% in 2 years.

Group Infrastructure Manager

TRIDENT ENERGY – London, UK ***Sept 2021 – April 2022***

- Established and led the Group Infrastructure Department, standardizing engineering processes across subsidiaries.
- Managed structural and process engineering projects, including gas compression extensions.
- Led the FPSO ICSS retrofit project, upgrading process control systems and safety shutdown protocols.

Projects Director

TRIDENT ENERGY – Bata, Equatorial Guinea ***Oct 2018 – Sept 2021***

- Spearheaded the Okume Upgrade Project, delivering 35% under budget and with minimal delays.

TECHNICAL SKILLS

- Surface Engineering
- Project Management
- Asset Integrity
- Pipeline Engineering
- Process Engineering
- Corrosion Control

SOFT SKILLS & PERSONALITY TRAITS

- Leadership
- Analytical
- Negotiation
- Team Management

EDUCATION & TRAINING

- MSc in Advanced Mechanical Engineering – Imperial College London (2006)
- MSc in General and Mechanical Engineering – Arts et Métiers ParisTech (2006)
- French: Native
- English: Bilingual

OIM France SAS
RCS Saint Nazaire 948 296 983
12, allée des Alizés + 44380 PORNICHET, France

- Led the engineering and construction of the Elon-C wellhead platform, ensuring seamless integration with existing networks.
- Prepared future field development plans to reduce downtime and increase production by 15% .

Group Structure and Pipeline Engineering Manager & Group Integrity Manager

PERENCO – Paris, France ***June 2017 – Oct 2018***

- Directed the design, procurement, and installation of offshore jack-up platforms, reducing costs significantly.
- Implemented advanced inspection techniques and repair protocols, resulting in a 15% reduction in OPEX.
- Supervised structural upgrades and life extension studies for aging platforms.

Special Operations Manager

PERENCO – Port Gentil, Gabon ***Dec 2016 – June 2017***

- Assessed Total Gabon's offshore and onshore assets for acquisition, focusing on process efficiency.
- Provided technical leadership during contract negotiations for asset integration.

Asset Integrity & Field Works Manager

PERENCO – Port Gentil, Gabon ***May 2014 – Dec 2016***

- Managed the integrity and operational performance of 40 offshore platforms and over 2,000 km of pipelines.
- Reduced leak rates by 95% with a robust integrity management system.
- Directed more than 100 technical projects, including platform extensions and process debottlenecking.

Integrity Management System Leader & Pipeline Specialist

PERENCO – Paris, France ***Sept 2010 – May 2014***

- Developed and standardized Perenco's Integrity Management System across 12 subsidiaries.
- Provided expert support to production sites, reducing downtime by 15% .
- Led training sessions on integrity management for operational and management staff.

Deputy Project Manager – Subsea Flowlines

ITP INTERPIPE – Port Harcourt, Nigeria ***June 2008 – Sept 2010***

OIM France SAS
RCS Saint Nazaire 948 296 983
12, allée des Alizés + 44380 PORNICHET, France

- Led the design, fabrication, and installation of subsea flowlines for the USAN project.
- Supervised a team of 30 workers, ensuring high production standards.

Pipeline Project Engineer

ITP INTERPIPE – Paris, France ***March 2007 – May 2008***

- Managed the fabrication of a pipe-in-pipe system for the Dunbar project.
- Developed and patented an innovative cryogenic insulation solution.
