

Quality Control Inspector / CMM Programmer

Presented by OIM, your trusted partner in Quality Services. We specialise in supplying top-tier Quality Inspection Personnel to integrate and reinforce your teams.

EXECUTIVE SUMMARY

Dedicated Quality Control Inspector with extensive experience in offshore engineering and manufacturing sectors. Proven track record in quality assurance, inspection, and CMM programming. Strong technical knowledge complemented by excellent manual dexterity skills. Committed to maintaining high standards of safety and compliance while working autonomously or as part of a team.

KEY ACHIEVEMENTS

CMM Programming: Solely responsible for the daily operations of the CMM Room, ensuring new tool validation and compliance with specifications.

Quality Control Leadership: Led a QC team in comprehensive inspections, ensuring all products met engineering standards and client specifications.

Inspection Efficiency: Streamlined inspection processes using advanced software tools, improving accuracy and reporting.
