

IRATA Level 3 Rope Access NDT Inspector

Presented by OIM, your trusted partner in Quality Services. We specialise in supplying top-tier Quality Inspection Personnel to integrate and reinforce your teams.

EXECUTIVE SUMMARY

IRATA Level 3 rope access professional and NDT inspector with experience across offshore and industrial maintenance projects in Angola and South Africa. Background includes NDT support (UTM, magnetic particle and visual inspection), blast and paint supervision, bolting and general industrial maintenance performed at height using rope access techniques. Has also worked as an IRATA lead trainer/instructor and assistant trainer, delivering training for Levels 1–3 and supporting training center development. Experienced in coordinating site activities and supervising teams while maintaining a strong focus on safe execution and quality. Known as proactive, responsible and reliable, with the ability to work freelance or within large service organizations.

KEY ACHIEVEMENTS

IRATA Level 3 progression and supervision: Achieved IRATA Supervisor Level 3 and held multiple supervisor roles on maintenance, paint/blast and bolting scopes in Angola and South Africa.

NDT inspection support using rope access: Supported NDT inspection activities using rope access techniques for offshore/industrial assets, including UTM, magnetic particle and visual inspection.

IRATA training delivery: Delivered IRATA Levels 1–3 training as a lead trainer/instructor in Cape Town and supported training operations as an assistant trainer.

Training center support: Assisted with translation and the construction/development of a rope access training center during Rope Tec assignments.
