EXECUTIVE SUMMARY

Mateus Filipe Quarta is an Angolan welding professional with experience as a Welder and in weld inspection on industrial projects. He has worked for SONAMET S.A.R.L for three years as a welder, supported maintenance activities at Malongo for a short-term assignment, and performed weld inspection on the AH-Laúca dam project for one year. His background includes industrial maintenance education and training in welding processes, confined space safety, and NDT methods (PT and MPI). He is focused on safe execution, quality workmanship, and supporting project objectives in demanding site environments.

KEY ACHIEVEMENTS

Weld inspection assignment on AH-Laúca project: Performed weld inspection activities for approximately one year on the AH-Laúca (dam) project.

Multi-project fabrication exposure at SONAMET: Contributed as a welder across multiple SONAMET projects including Mad-Mad CLOV, Blue Water CLOV, FMC CLOV, Mafumeira (Jacket) – Chevron, and Kizomba Satellite scopes.

NDT and safety training completed: Completed intensive training in NDT (PT, MPI) and confined space training, supporting quality and safe work execution.
