

Maintenance Support Technician (Rope Access) – FPSO Inspection & Corrosion Control

Presented by OIM, your trusted partner in Quality Services. We specialise in supplying top-tier Quality Inspection Personnel to integrate and reinforce your teams.

EXECUTIVE SUMMARY

Maintenance Support professional in the offshore oil and gas sector, working on FPSO assets in Angola with Rope Access Angola. Experienced in maintenance and inspection activities focused on corrosion control, scaffolding, and painting on Girassol, Dallia, and PSVM FPSOs for major operators. Supports safe execution of work at height and in hazardous environments, applying rope access and offshore safety training. Recognized internally as a pioneer member of the company's safety leadership team. Reliable and adaptable, with a strong focus on operational integrity and safe work practices.

KEY ACHIEVEMENTS

Long-term FPSO maintenance support: Provided ongoing maintenance and inspection support on multiple FPSOs (Girassol, Dallia, and PSVM) since September 2011.

Corrosion control and preservation scope: Performed corrosion control activities including surface preparation and protective coating work as part of FPSO integrity maintenance.

Safety leadership involvement: Served as one of the pioneer members of the safety leadership team within Rope Access Angola.
