

Rope Access Technician (Offshore)

FB

Presented by OIM, your trusted partner in Quality Services. We specialise in supplying top-tier Quality Inspection Personnel to integrate and reinforce your teams.

EXECUTIVE SUMMARY

Oil and Gas Engineering graduate with offshore and onshore experience in industrial services, including rope access and scaffolding support roles. Worked in offshore rotations performing rope access interventions such as confined-space rescue support, blasting, painting, and maintenance activities. Experienced in industrial scaffolding as a scaffoldier on offshore projects. Trained across HSE/BST, confined space entry, quality control fundamentals, and multiple digital/maintenance tools including SAP PM, SAP S/4HANA, MS Project, and Power BI. Safety-focused and able to work under pressure while collaborating effectively within teams.

KEY ACHIEVEMENTS

Offshore rope access operations: Performed rope access interventions offshore on a 28/28 rotation, including blasting, painting, maintenance support, and confined-space rescue activities.

Offshore scaffolding support: Supported offshore works as a scaffoldier on a 28/28 rotation, contributing to safe access and worksite readiness.

Safety and emergency preparedness training: Completed BST modules (EFA, PST, PSSR, FP/FF) and confined space entry training, updated in 2023.

Maintenance and digital tools upskilling: Completed training in SAP PM (Plant Maintenance), SAP S/4HANA fundamentals, MS Project, and Power BI to support maintenance and project activities.
